## **ACTIVIEW APP**

This month, we're featuring two short videos about an app that's available to everyone with an iPhone!

Actiview is an all-in-one app for assistive and accessible content for movies at the theater or in your home. It works everywhere the movie is playing, without any setup required. The app is not just for deaf people - it's for anyone who is hard of hearing.

Check out Rosa Lee Timm's video (above). This video really works because of its clarity of what Actiview is and how the app works. The video itself

is very well made - the lighting is good and there's a nice shallow depth of field.

And below, check out Noah Carver's excited testimonial after seeing *Solo: A Star Wars Story* with the help of Actiview. Noah's a young teen who is really interested in media and wants to experience it like his friends - his enthusiasm is crystal clear. Actiview helps Noah be a part of the pop culture wave that's important to him, and to us all.

There is so much exciting and well-made media about disability. The challenge is knowing where to find it, and how to use it.

Trusted Source is a monthly media recommendation that you can use in your trainings and classrooms, and that you can share with your networks. We hope you find these pieces as insightful and inspiring as we do.
