Creativity Explored***

"We are committed to supporting people with developmental disabilities in their quest to become working artists, and to promoting their work as an emerging and increasingly important contribution to the contemporary art world."

Creativity Explored

This month, Trusted Source spotlights Creativity Explored. Based in San Francisco, Creativity Explored is a full time visual arts center for people with developmental disabilities, where they receive support and mentorship in a studio environment. They are given an opportunity to professionally exhibit their work and engage with a broader artistic community.

In Creativity Explored's well-made video, we learn more about their purpose and see artists highlighted.

THREE REASONS TO WATCH

PROFESSIONALISM

With high-quality production values, the video appropriately captures an artistic community that promotes professional standards.

THE ART

We get a good, detailed look at the kind of work the artists at Creativity Explored are making.

DIVERSITY

The video features people working in a variety of artistic mediums. The unique ability of each artist is featured. The variety of creative expression gives real meaning to the organization's name, Creativity Explored.

There is so much exciting and well-made media about disability made today. The challenge is knowing where to find it, and how to use it.

Trusted Source is a monthly media recommendation that you can use in your trainings and classrooms, and that you can share with your networks. We hope you find these pieces as insightful and inspiring as we do.
